

## Alberta's Submission of AIT Legitimate Objectives for the Denturist Profession

### 1. Global Legitimate Objectives

---

#### Applicable to any Denturist registered in any other Canadian Jurisdiction:

The following are legitimate objectives for individuals from any other Canadian jurisdiction, as Alberta is the only jurisdiction with authorization to provide these services:

1. Ordering of any form of ionizing radiation in medical radiography.
2. Reduction of a dislocation of a temporomandibular joint for the purpose of reducing a subluxation of the temporomandibular joint.
3. To prescribe and fit a fixed implant supported prosthesis that replaces 2 or more teeth.
4. Insert and remove instruments, devices and fingers into an artificial opening in the mouth. For example, to remove implant healing abutments and place transmucosal implant abutments.

### 2. Additional Jurisdictional Legitimate Objectives

---

In addition to the four legitimate objectives listed in Item #1 above, the following applies to the identified jurisdiction:

#### **i For Denturists registered in the Yukon, Northwest Territories or Nunavut:**

These jurisdictions do not have any methodology in place for registration examinations, and they require individuals to maintain registration in another Canadian Jurisdiction.

Therefore, for these individuals, registration in the named jurisdiction does not provide direct registration equivalency and therefore, the individual's registration in the "other jurisdiction" will be reviewed and the legitimate objectives for that "other jurisdiction" will apply.

#### **ii For Denturists registered in British Columbia:**

1. To prescribe and fit a removable implant supported prosthesis that replaces 2 or more teeth.
2. To prescribe and fit a removable partial denture.

**iii For Denturists registered in Manitoba:**

**Due to the requirement of an Oral Health Certificate,**

1. To prescribe and fit a removable partial or complete denture.
2. To prescribe and fit a removable implant supported prosthesis that replaces 2 or more teeth.

**iv For Denturists registered in Quebec:**

1. To prescribe and fit a removable implant supported prosthesis that replaces 2 or more teeth.

**v For Denturists registered in New Brunswick:**

**For Class “B” Category of Licensure only**

1. To prescribe and fit a removable partial denture.

**vi For Denturists registered in Nova Scotia:**

1. To prescribe and fit a removable implant supported prosthesis that replaces 2 or more teeth.
2. To prescribe and fit and/or adjust a removable partial or complete denture which contains a cleft palate obturation device.

**vii For Denturists registered in Newfoundland & Labrador:**

1. To prescribe and fit a removable partial or complete denture for immediate placement post-extraction.

**viii For Denturists registered in Prince Edward Island:**

1. To prescribe and fit a removable implant supported prosthesis that replaces 2 or more teeth.
2. To prescribe and fit and/or adjust a removable partial or complete denture which contains a cleft palate obturation device.

**Due to the requirement of review and approval by a dentist,**

3. To prescribe and fit a removable partial denture.
